Technical Skills Development

1.2 Take a role in the production of a short film

What is your production role?	~~whatever is left~~ ~~[illegible]~~ Co-Producer
What do you have to do to carry out this role? (Think about pre-production, production and post-production)	I have a vision, an idea which I will be able to carry out and manage a ~~team~~ group of people, and be able to overlook the whole production and editing process of the film.
What skills do you need to carry out your production role?	a loud voice, being able to say your opinion. You need to be able to be flexible at sometimes but be able to stand by your opinion.
What equipment and planning documents do you need to carry out this role?	We will be using final Draft to write the script and for story boards I would like for them to be done on paper. I will also like to stay in contact with everyone in production so I will know what everyone is doing when.
What other resources are needed in your film production?	we will need the basics like camera, sound, lighting equipment which will cover the main part of filming. we will also need to have paper to file money and cost of production for how much we will spend on food and catering the same is the costume and set cost.
